Sharp objects	Saw can produce sharp off cuts. Saw blade.	Take care handling cut material. Keep hands away from moving blade.	
Dust	Saw can produce dust if used with wood.	Eye protection and dust mask.	

PURPOSE/PROCESS

Accurate cutting of metal, wood and other material.

PROCEDURES:

DO NOT use this machine unless you have proven to your trainer that you are competent in its safe use and operation

Pre Start Check

1. Check the area is uncluttered and free from slips, trips and fall risks.
2. Check that all attachments (including handle) are secure and correctly fitted.
3. Always be sure the Jigsaw is unplugged before adjusting or checking function.

4. Make sure the material to be worked on is secure before starting.

Operation

1. If Jigsaw is adjustable, set the required speed.
2. Switch on the Jigsaw at the power outlet.
3. Let the Jigsaw get up to speed before starting to cut.
4. Do not force the jigsaw when cutting (let it work at its own speed)
5. Do not cut towards you
6. Beware of hot chips (when cutting steel)

Close Down

1. Let jigsaw stop before removing from work
2. Jigsaw blade can be hot
3. When finished turn off power and unplug and clean area

Routine maintenance

Lock out and/or isolate any equipment before inspection or maintenance
