Washing vehicle parts

PROCEDURES:

DO NOT use this machine unless you have proven to your trainer that you are competent in its safe use and operation

Operation

1. Remove worst of dirt before putting parts into bath
2. Wet part to be cleaned in wash before starting
3. Brush dirt away from you to avoid splashing eyes or face
4. If using a compressor, blow the air away from you, not into the wash
5. Ensure the area is adequate vented
6. There is no flame or ignition source near the parts wash
